Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4, 12, 13 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by U. S. Patent No. 5,757,914 to McManis.

As per claims 1 and 12, McManis discloses the limitations of these claims (see at least the abstract and fig. 3)

As per claim 2, McManis discloses these features (col. 3, line 59 to col. 4, line 6).

As per claims 3 and 13, McManis further discloses these limitations (col. 4, lines 39-53).

As per claim 4, McManic also discloses these features (col. 4, lines 7-23).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 2132

Claims 5-8, 11, 14-17, 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over McManis as applied to claims 1, 4 and 12 above, and further in view of the examiner taking official notice.

As per claims 5-8, 11, 14-17, 20, McManis do not specifically disclose the limitations of these claims. The examiner, however, takes official notice that these elements are well known in the art of security systems. It would have been obvious to anyone having an ordinary level of skill in the art at the time the invention was made to have combined these well known features in applicant's invention with the invention of McManis since they comprise very well known elements necessary for the entire system to function in a secure and controlled environment.

Allowable Subject Matter

Claims 21-67 are allowed.

Claims 9, 10, 18, 19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thomas R. Peeso whose telephone number is 571 272-3809. The examiner can normally be reached on Mon.-Fri, 7:00 a.m. to 3:30 p.m. The central fax number for the office is 571 273-8300.

If attempts to reach the examiner by telephone are unsuccessful, the

Art Unit: 2132

examiner's supervisor, Gilberto Barron, can be reached on 571 272-3799.
